# OUR EXECUTIVE SUMMARY

---

Established in 2013, Avant has swiftly grown to become a prominent name in the textile trading industry. Our journey began with a commitment to provide high-quality fabrics, and today, we are proud to offer a diverse range of materials including jute, PVC, cotton, and various specialized categories of jute.

Over the years, we have continually evolved to meet the dynamic needs of our customers. In addition to our core textile offerings, we have expanded our product line to include SPC tiles and PVC, broadening our market reach and enhancing our product portfolio.

Our growth is marked by strategic expansions and an unwavering dedication to quality and service. We have established full-fledged operations in India and Bangladesh, allowing us to better serve our clients with efficiency and local expertise. Recognizing the potential in emerging markets, we have also extended our footprint to Africa, with dedicated representatives in Peru and Ghana.

At Avant, our mission is to deliver excellence through innovation, sustainability, and unparalleled customer service. We believe in building strong relationships with our partners and clients, ensuring that our products meet the highest standards of quality and sustainability.

As we look to the future, we remain committed to exploring new opportunities and expanding our horizons. Join us on our journey as we continue to weave success into every fabric of our business.

# OUR COMMITMENT

Our commitment is to deliver excellence, innovation, sustainability, and customer satisfaction. We ensure top-notch quality through rigorous controls and embrace new technologies to continually improve our products. Sustainability is at our core, with eco-friendly practices and responsibly sourced materials, especially in our jute products.

Our global operations in India, Bangladesh, Peru, Mexico, Brazil and Ghana allow us to meet diverse market needs effectively. We prioritize exceptional customer service and uphold integrity and transparency in all our dealings, treating all stakeholders with respect and fairness.

# WHY JUTE?

- Jute has great antistatic properties; so that any kind of static charges are not produced during Jute Product making or using.
- Jute is a insulating fiber and this is why it can be used to make cloth which would be used in electrical works.
- Temperature is passed in this fiber slowly because of the low thermal conductivity.
- Moisture Regain properties is good enough (about 13.75%).
- Produce no irritation in skin.
- 100% Biodegradable; so it is environment friendly fiber like Cotton.
- Available in the market and the overall productivity of Jute Fiber is good.
- Tensile strength is high.
- Can be widely used in Agriculture Sector, Textile Sector, Woven Sector.
